

DET 6, 600TH PHOTO SQUADRON
Bien Hoa, RVN

First Lieutenant Ralph E. Verre remained in the position of detachment commander throughout the reporting period. As of 1 July 1967 twenty nine people were assigned to the unit. But, by the end of the calendar year the number had dropped to twenty seven.

Special projects documented by the detachment included:

- (1) off base operations for the A-37 program in SEA and
- (2) The arrival of the 101st Airborne Division for duty in SEA.

Detachment personnel contributed to a Civic Action Project to help send children to high school. Donations were sufficient enough to sponsor two children, each for one year of high school.
